DETAILED ACTION

Response to Arguments

Applicant's arguments filed 2/11/05 have been fully considered but they are not persuasive. The restriction/election requirement is maintained for the reasons cited in the original requirement.

Allowable Subject Matter

Claims 1-3 and 8 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art fails to show or fairly suggest a structure to supply a resonator, which is bonded to a base, a means of supplying voltage to that resonator including use of silicone based conductive adhesives, mounting electrodes provided on the base, conductive anchor members formed of a rigid resin disposed on the surfaces of the mounting electrodes, with the silicone-based conductive adhesives between the conductive anchor members and the resonator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

This application is in condition for allowance except for the following formal matters:

Cancellation of the non-elected claims is required for the case to go to issue.

Art Unit: 2834

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
